# 5 Things To Always Do Immediately After Every Car Accident

1

**Call 911.** Always call the police and make sure a police report is created, no matter how minor you believe the accident is and regardless of whether or not you believe you've been injured. NEVER just exchange insurance information.

2

**Take photos and videos** of the accident scene, the cars, and your injuries. Do this from a safe location, and NEVER stand in between disabled cars or in the line of traffic.

3

**Seek medical care right away**, even if you think your injuries are minor. Many car accident injuries do not show up immediately after the accident.

4

**Do not speak to the other driver's insurance company**, and NEVER try to negotiate with an insurance company on your own. Just don't do it, no matter how nice they seem and no matter what they offer you.

5

**Contact an experienced personal injury lawyer.** A lawyer can help you find the best medical providers for your injuries, deal with the insurance companies, and handle the paperwork while you focus on healing.
