

Golf Cart Accident Guide (keep this in your cart)

WAYS TO STAY SAFE AND PREVENT AN ACCIDENT:

Follow all traffic rules! This includes speed limits, stop signs, and staying on designated paths. Avoid rough terrain, steep inclines and areas not meant for carts.

Buckle up! Always use available seat belts to reduce the risk of injury in case of an accident.

Yield to pedestrians! Give the right of way to pedestrians and be mindful of walkers, especially in busy areas or near clubhouses.

Drive sober! Never operate a golf cart under the influence of alcohol or drugs. Florida's DUI laws apply to golf carts and low speed vehicles!

5 THINGS TO DO IF YOU'RE IN AN ACCIDENT:

Always make sure to **stop** at the accident scene.

Report the crash to the police if you or anyone else suffered an injury.

Take photos and videos of the accident scene and of your injuries.

Follow your doctor's directions for caring for your injuries and attend all medical appointments.

Call an experienced personal injury lawyer to discuss your accident before you speak with any insurance companies.
